

Abstract of the disclosure

A composition containing an antineoplastic alkylphospholipid, and an
antineoplastic antiestrogen in a lipid vesicle; more particularly, the composition
is a liposome composition which comprises (i) an antineoplastic
alkylphospholipid,(ii) an antineoplastic water -or lipid-soluble antiestrogen
5 associated in liposomal form with the antineoplastic alkylphospholipid, (iii) a
nonneoplastic phospholipid, and optionally one or more of (iv) a sterol, (v) a
positively or negatively charged lipid, and (vi) a PEG lipid.
